Introduction

This easy-to-use Quick Reference Guide will help you to more fully appreciate your vehicle’s superior features, unique functions and advanced technology.

- The Quick Reference Guide is intended to provide you with a user-friendly learning experience to quickly acquaint you with your new INFINITI vehicle.
- Refer to the Quick Reference Guide to learn how to personalize your vehicle’s controls and equipment to maximize your driving comfort and convenience.

However, this guide is not intended to replace your vehicle’s Owner Manual. For comprehensive vehicle safety information and product details please refer to your Owner’s Manual. It will help you to better understand the operation and proper maintenance of your new INFINITI vehicle.

Both INFINITI and your INFINITI dealer are dedicated to serving all your automotive needs. Your complete satisfaction is our primary concern. It is suggested that you read this Quick Reference Guide and your vehicle’s Owner Manual thoroughly before contacting your INFINITI dealer with related questions.

Wind Deflector

Your vehicle can be equipped with the accessory Rear Wind Deflector. When the convertible hard top is open, and the rear seats are unoccupied, the Rear Wind Deflector can be easily installed to help reduce wind and noise, and secure contents stored on the rear seats while driving with the top down. When not in use, the foldable Rear Wind Deflector can be stored in its accompanying storage bag.

12-Volt Power Outlet and Auxiliary Input Jacks

A 12-volt power outlet is located within the center console. This outlet can be used for accessories that do not exceed a 12-volt, 120W (10A) power draw. There are also auxiliary input jacks located within the center console. NTSC compatible devices such as video games, camcorders and portable video players can be connected to the auxiliary jacks. To select the auxiliary input, press the AUX button.

The auxiliary jacks are color coded for identification purposes (cable not included).
- Yellow – video input
- White – left channel audio input
- Red – right channel audio input

Note: Video will only be displayed in the Information Display screen when the parking brake is applied.

Important Customer Information

Aluminum Alloy Wheels

Your vehicle is equipped with aluminum alloy wheels that should be cleaned regularly with a sponge dampened in a mild soap solution specified for automotive applications, especially during winter months in areas where road salt is used. Salt could discolor the wheels if not removed. To help prevent damage to your alloy wheels:
- Do not use a cleaner that uses strong acid or alkali contents to clean the wheels.
- Do not apply wheel cleaner to the wheels when they are hot. The wheel temperature should be the same as the ambient temperature.
- Rinse the wheel to completely remove the cleaner within 15 minutes after the cleaner is applied.

All illustrations, photographs and specifications in this guide are based on the latest product information; some vehicle parts cannot be shown in certain photographs. Some vehicles are shown with optional equipment. See actual vehicles for complete accuracy. INFINITI Division of Nissan North America, Inc. reserves the right to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models, and to discontinue models or equipment. Availability and delivery time for particular models and equipment combinations may vary. For information on availability, additional options or accessories, contact your INFINITI dealer. All specifications, options and accessories shown in this guide apply to the 49 continental states. Specifications, options and accessories may differ in Hawaii, U.S. territories and other countries. INFINITI INTELLIGENT KEY SYSTEM
This Intelligent Key system allows you to lock and unlock all doors (including the fuel filler door), open the trunk, and start and stop the engine without having to remove the Intelligent Key from your pocket or bag. While inside the vehicle, it lets you start and stop the engine via push-button ignition and it can signal the seat, steering wheel, and outside (side view) mirrors to adjust to your personalized memory setting (if so equipped). Two Intelligent Keys are provided with your INFINITI vehicle.

PUSH BUTTON IGNITION SWITCH

To Start the Engine:
With the Intelligent Key inside the vehicle:

Automatic Transmission Vehicles
1 Confirm the transmission is in P (PARK).
2 Depress the brake.
3 Push the ignition switch to ON mode. Release the ignition switch when the engine has started.

Manual Transmission Vehicles
1 Put the transmission in N (NEUTRAL).
2 Push the ignition switch while depressing the clutch fully to the floor.

To Stop the Engine:
Put the transmission in P (PARK) and push the ignition switch to LOCK (OFF) mode.

CHANGING IGNITION SWITCH MODES
(With the engine stopped and foot off brake)

In LOCK (OFF) mode, push the ignition switch:
■ One time to change to ACC (Accessory) mode.
■ Two times to change to ON mode.
■ Three times to return to LOCK (OFF) mode.
The Intelligent Key
The Intelligent Key signals the vehicle as you approach, allowing you to lock and unlock all doors (including the fuel-filler door), open the trunk, open the windows, and activate a panic alarm from outside the vehicle.

Panic Alarm Button
Press and hold down for more than 1 second to sound the horn and flash the headlights. Press any button on the Intelligent Key to stop the panic alarm.

Trunk-Release Button
Press and hold down for 1 second to open the trunk.

UNLOCK Button
Press once to unlock driver’s door and the fuel-filler door. Press again within 1 minute to unlock all other doors. Press and hold down for at least 3 seconds to open the windows. Continue pressing until the windows are completely open. Release the UNLOCK button to stop the windows from opening.

Key Ring Clip

Mechanical Key
The mechanical key can be used to lock or unlock all doors, the trunk, and the glove box.

LOCK Button
Press once to lock all doors, the trunk, and the fuel-filler door.

Lockout Protection
If you attempt to exit the vehicle and lock the doors with either door handle Request switch while the Intelligent Key is inside the vehicle, a rapid beep tone will sound and the doors will not lock to prevent the Intelligent Key from being locked accidentally in the vehicle.

In-Dash Intelligent Key Port
To start the vehicle if the Intelligent Key battery becomes discharged, insert the Intelligent Key into the In-Dash Port. Push the Intelligent Key completely into the port until you feel it “engage.”

To Remove the Intelligent Key from the Port:
Push in on the Intelligent Key to disengage it and then pull to remove it from the In-Dash Port.

Note: If you leave the Intelligent Key in the port when the ignition switch is toggled to LOCK (OFF) and the driver’s door is opened:
- the amber indicators on both sides of the port will flash,
- a repetitive beep tone will sound, and
- the Intelligent Key Removal indicator will illuminate on the Information display between the tachometer and speedometer.
Deactivating/Activating the Horn Alert Feature

Your vehicle is set to sound the horn when locking the vehicle.

To Deactivate: Press and hold down the LOCK and UNLOCK buttons together for at least 2 seconds. The hazard indicators will flash three times to confirm the operation is complete.

To Activate: Press and hold down the LOCK and UNLOCK buttons together for at least 2 seconds. The hazard indicators will flash once and the horn will chirp once to confirm the operation is complete.

Door Handle Request Switches

Note: Requires the Intelligent Key to be on “your person”, within the operating range for the lock/unlock operation to function.

To Lock the Doors: Push any door handle Request Switch once.
To Unlock the Doors: Push any door handle Request Switch once. The corresponding door will unlock. Push the door handle Request Switch again within 5 seconds to unlock all doors.

Automatic Door Lock/Unlock

When enabled, the Automatic Door Lock system will automatically lock all doors when the vehicle speed reaches 15 MPH.

To Turn ON/OFF the Automatic Door Lock Feature:
1. Close all doors.
2. Push the ignition switch to ON mode.
3. Within 20 seconds, push and hold the power door lock switch to the LOCK position for more than 5 seconds.
4. When this feature is activated, the hazard indicator lights will flash twice. When deactivated, the hazard indicator lights will flash once.

When enabled, the Automatic Door Lock system will automatically unlock all doors when the ignition switch is pushed to LOCK (OFF) mode.

To Turn ON/OFF the Automatic Door Unlock Feature:
1. Close all doors.
2. Push the ignition switch to ON mode.
3. Within 20 seconds, push and hold the power door lock switch to the UNLOCK position for more than 5 seconds.
4. When this feature is activated, the hazard indicator lights will flash twice. When deactivated, the hazard indicator lights will flash once.

Note: The ignition switch must be turned OFF and ON again between each setting change.
**OPENING/CLOSING THE WINDOWS**

Push down or pull up the driver’s side power window switches to open or close the corresponding window. The driver's side power window feature will automatically open or close the front door windows all the way.

For partial window opening or closing: Push or pull the window switch in the opposite direction during its auto-up/down operation.

Note: You must pull up and hold the rear window switches to completely close the corresponding rear window.

Push down or pull up the passenger side window switch to open or close the passenger side window.

Notes:
- The power windows switches are still active (for 45 seconds) after the ignition is in pushed to the OFF position, or until a door is opened.
- When the hardtop operating switch is pressed to OPEN or CLOSE, the driver's side and passenger side windows will automatically fully open. Pulling up and holding both driver's side front power window switches will raise both the front door and rear windows.

**OPENING THE FUEL-FILLER DOOR**

1. Unlock the doors with the Intelligent Key, door handle Request Switch, power door lock switch, or Mechanical Key.
2. Push in on the left-hand side of the fuel-filler door to release.

Note: You MUST use one of the methods noted above in step 1 to unlock the fuel-filler door. If the driver or front-passenger uses the inside door lock knob to unlock and exit the vehicle, the fuel-filler door will remain LOCKED and will not open.

**OPENING THE TRUNK**

In addition to the Trunk-Release button on the Intelligent Key, you can open the trunk by doing one of the following:
- Push the Trunk-Release switch on the Instrument Panel (refer to page 9 for switch location).
- With the Intelligent Key on “your person,” press the Trunk-Release button located on the left taillight.
Seat Adjustments

To Adjust Driver’s and Passenger’s Seats:

- To Slide the Driver’s Seat Forward or Backward
- To Recline the Seat
- To Lift the Seat
- To Slide the Passenger’s Seat Forward or Backward
- To Adjust Power Seat Lumbar Support (if so equipped)
- To Adjust Manual Lumbar Support (if so equipped)
- To Adjust Seat Thigh and Torso Support (if so equipped): Push the front switch (nearest to the steering wheel) up or down to adjust the thigh area. Push the back switch (furthest from the steering wheel) up or down to adjust the torso area.
- To Adjust the Seat Thigh Extension (if so equipped):

Seat Belt Guide

When the seat belt guide is used for the front seat, the seat belt can be easily be pulled and connected to the seat belt buckle. Unsnap the seat belt guide, install the seat belt at the front of the seat and secure the seat belt guide again.

Rear Passenger Entry Exit

For ease in entering and exiting the rear passenger areas of the vehicle, perform the following steps:

1. Unsnap the front seatbelt guide and release the seat belt.
2. Pull the seatback lever upward to flip the seatback forward.
3. Press the seatback button to slide the front seat forward.

To Return the Front Seat to its Original Position:

1. Push or pull the seatback backward until it locks in place.
2. Press the seatback button to slide the front seat backward.
3. Reposition the seat belt and reinstall the seatbelt guide securely.

Note: To STOP the front seat from sliding, press the seatback button again, or press the seat slide switch.
Opening/Closing the Hardtop

Note: The hardtop can ONLY be operated when the trunk area is empty and the separator partition is in the upright position and secured in its holders.

1. Pull up on the strap to open the trunk room partition.
2. Secure the partition hooks into holders until they latch. If the trunk room partition hooks are not latched in the holders, the hardtop cannot be operated and the “CHECK SEPARATOR” indicator will illuminate on the dot-matrix display screen located between the tachometer and speedometer.
3. Make sure that no cargo is placed in the trunk area.
4. Securely close the trunk before operating the hardtop.

Note: The vehicle must be on a level surface when operating the hardtop.

To Open the Hardtop:
1. Move the selector lever to the P (Park) position (automatic transmission model only), or move the shift lever to the N (Neutral) position (manual transmission model only), and apply the parking brake.
2. Start the engine.
3. Press the hardtop operating switch to the OPEN side and hold until the top is fully open. The Roof Open indicator will display when the hardtop is OPEN completely.

To Close the Hardtop:
1. Move the selector lever to the P (Park) position (automatic transmission model only), or move the shift lever to the N (Neutral) position (manual transmission model only), and apply the parking brake.
2. Start the engine.
3. Press the hardtop operating switch to the CLOSE side and hold until the top is fully closed. The Roof Closed indicator will display when the hardtop is CLOSED completely.

Notes:
- If you release the switch and press it again while the top is being opened, the top will slightly move to the closing direction, and then start moving to the opening direction again.
- When the hardtop operating switch is pressed to OPEN or CLOSE, the driver’s side and passenger side windows will automatically fully open. The windows do not rise automatically after the top opening or closing operation is completed. Pulling up and holding both front power window switches will raise both the front and rear windows.
Opening the Hardtop Using the Driver Door Handle Request Switch

The hardtop can be opened using the driver side door request switch. Press and hold driver side door request switch until the hardtop is open completely. This operation cannot close the hardtop.

Note: Requires the Intelligent Key to be on “your person”, within the operating range for the lock/unlock operation to function.

Hardtop Operation Indicators

The conditions of the hardtop OPEN/CLOSE operation status will be indicated on the Information display screen (located between the tachometer and speedometer) while the hardtop is being operated.

- **Roof in operation** – This indicator is displayed while the hardtop is being operated.

- **Roof open** – This indicator is displayed when the hardtop is OPEN completely.

- **Roof closed** – This indicator is displayed when the hardtop is CLOSED completely.

- **Check separator** – This indicator is displayed when the trunk room partition is NOT LATCHED in the holders.

- **Check trunk** – This indicator is displayed when the trunk is NOT CLOSED completely.

Front-Passenger Air Bag Status Light

This vehicle is equipped with the INFINITI Advanced Air Bag System. Under some conditions, depending on pressure detected on the passenger seat and how the seat belt is used, the front passenger air bag is designed to automatically turn OFF. When the front-passenger air bag is OFF, the front-passenger air bag status light will illuminate.*

For example:

- When the system detects that the front-passenger's seat is occupied by a small adult, child or child restraint as outlined in the Owner’s Manual, the front-passenger air bag status light will illuminate to indicate that the front-passenger air bag is OFF and will not inflate in a crash.
- When the front-passenger’s seat is occupied and the passenger meets the conditions outlined in the Owner’s Manual, the front-passenger air bag status light will not illuminate to indicate that the front-passenger air bag is operational.

*When the system detects that the front-passenger’s seat is unoccupied, the passenger air bag status light will not illuminate even though the front-passenger air bag is OFF.
Vehicle Control Center

The following buttons and controls are used together to operate most functions displayed on your vehicle’s Information Display screen:

- **INFINITI Controller**
- **Buttons and Controls surrounding the INFINITI Controller**
- **Audio System Controls** – refer to page 19
- **Heater and Air Conditioning Controls** – refer to page 29
- **Touch Screen Operation** (for Navigation-equipped vehicles ONLY)

Refer to the 2009 INFINITI Navigation System Owner’s Manual for more details about Touch Screen operations.

INFINITI Controller

Buttons located on or surrounding the INFINITI Controller serve various purposes for navigating around the Information Display screen and choosing options. As you use the vehicle controls, you will find the control combination that best suits your needs.

1. **Center Dial**
   Rotate the Center Dial to navigate **UP**, **DOWN**, and **ACROSS** the Information Display screen, highlight items for additional information, and to make changes to settings.

2. **Main Directional Buttons**
   Four Main Directional buttons (marked with arrows) on the face of the INFINITI Controller can also be used to perform the same functions as the Center Dial.

3. **Additional Directional Buttons** (for vehicles with the INFINITI Navigation System)
   Four additional buttons (marked with small dashes) are located between the Main Directional buttons. When using the Navigation system for instance, these buttons can be used in different ways to make “fine-tuned” movements around the Navigation Map screen.

4. **ENTER Button**
   When you use the Center Dial or Main Directional buttons to highlight a menu item, the text will highlight. Press the ENTER button to select the highlighted item.

5. **BACK Button**
   Press to return to the previous function shown on the Information Display screen, and to delete characters when using the on-screen keyboard.

6. **VOICE Button** (for vehicles with the INFINITI Navigation System)
   Press to repeat a Navigation instruction (if a destination has been set). Refer to the Navigation section of this guide (beginning on page 33) for more detailed Navigation system information.
**Information Display Screen**

Vehicle functions are viewed in menus on the Information Display screen. As menu items are highlighted/selected, additional information may display on the screen.

**Touch Screen Operation**  
(for vehicles with the INFINITI Navigation System)

This feature allows you to perform the same operations controlled by the INFINITI Controller simply by touching menu items on the Information Display Screen.

**Display Contrast Setting**

To adjust the Information Display screen contrast for optimum viewing of vehicle functions when the hard top is open or closed:

1. Press the **DAY•NIGHT/OFF/BRIGHTNESS** button, then select the desired display setting mode.
   
   Note: The Display screen setting can be adjusted in Day View and Night View.

2. Press the **SETTING** button.

3. Highlight **Display**, then press ENTER.

4. Highlight **Contrast**, then press ENTER.

5. Adjust the Information Display screen for optimum viewing contrast (+ or −) by pressing the Main Directional buttons or by rotating the Center Dial.

6. Press the **BACK** button repeatedly to return to the previous menu.
Buttons Surrounding the INFINITI Controller

**DEST Button** (for vehicles with the INFINITI Navigation System)  
Press to set a destination in the Navigation system.

**ROUTE Button** (for vehicles with the INFINITI Navigation System)  
Press to display Route related information and settings.  
Refer to the Navigation section of this guide (beginning on page 33) for more detailed Navigation system information.

**MAP Button** (for vehicles with the INFINITI Navigation System)  
Press to display the Map screen.

**PHONE Button** (for vehicles with the INFINITI Navigation System)  
Press to display functions of the Bluetooth® Hands-free Phone System.  
Refer to Bluetooth® Hands-free Phone System (beginning on page 25) for more detailed Navigation system information.

**INFO Button**  
Press the INFO button to access the following vehicle information:  
- Fuel Economy  
- Maintenance  
- Traffic Info. (for vehicles with the INFINITI Navigation System)  
- Where Am I? (for vehicles with the INFINITI Navigation System)  
- GPS Satellite Information (for vehicles with the INFINITI Navigation System)  
- Voice Recognition (for vehicles with the INFINITI Navigation System)  
- Navigation Version (for vehicles with the INFINITI Navigation System)

**SETTING Button**  
Press to display the Settings menu.

**STATUS Button**  
Press repeatedly to display the status of audio, climate control, fuel consumption, and navigation system functions (if so equipped).  
Note: When you press the STATUS button you will be able to view information as follows: Audio and Climate control system > Audio and fuel consumption > Audio and Navigation system > Audio.

**ZOOM OUT Button** (for vehicles with the INFINITI Navigation System)  
Press to increase the Map view, showing more area.

**ZOOM IN Button** (for vehicles with the INFINITI Navigation System)  
Press to decrease the Map view, showing greater detail.
INCREASE BRIGHTNESS Button (for vehicles with the INFINITI Navigation System)
Press to increase the Information Display screen brightness.

DECREASE BRIGHTNESS Button (for vehicles with the INFINITI Navigation System)
Press to decrease the Information Display screen brightness.

DAY•NIGHT/OFF/BRIGHTNESS Button
- Press to switch the Information Display screen between day view and night view.
- While the adjustment bar indicators appear on the screen, adjust the Information Display screen brightness UP or DOWN by turning the INFINITI Controller Center Dial.
- Press and hold down to turn OFF the display. To resume display, press again.

AM•FM•SAT Button (for vehicles with the INFINITI Navigation System)
Press to change radio bands: AM > FM > SAT (if so equipped and XM® Satellite Radio is activated).

RADIO AM•FM Button (for vehicles without the INFINITI Navigation System)

DISC•AUX Button (for vehicles with the INFINITI Navigation System)
Press to activate and display the following modes:
- Audio CD or CD with MP3/WMA in the in-dash CD player
- CompactFlash®
- AUX
- iPod®
- Music Box™

AUX Button (for vehicles without the INFINITI Navigation System)
A portable video or audio player may be connected to the vehicle using the auxiliary input jacks located in the center console (cable not included). To select the auxiliary input, press the AUX button.
Note: Video will only be displayed in the Information Display screen when the parking brake is applied.

DISC Button (for vehicles without the INFINITI Navigation System)
Press to activate audio CD and CD with MP3/WMA functions.
Steering Wheel Controls
Audio and Bluetooth® Hands-free Phone Systems

For Vehicles with the INFINITI Navigation System

1 SOURCE Select Button
Press to change between the following modes:
- Radio preset banks (A, B, and C)
- iPod® (if an iPod® is connected*)
- Music Box™ (if songs are stored)
- Audio CD or CD with MP3/WMA (if a CD is inserted in the in-dash CD player)
- CompactFlash® (if a CompactFlash® card is inserted)
- AUX (if an external device is connected)
*If no audio is heard when toggled to iPod® mode, confirm that a song is selected.

2 SCREEN NAVIGATION and ENTER Switch
Push the ENTER switch UP ▲ or DOWN ▼ to navigate UP, DOWN and ACROSS the Information Display screen. When the desired item is highlighted on the screen, press ENTER to select it.

For Radio:
- Push the ENTER switch UP ▲ or DOWN ▼ for less than 1.5 seconds to page through the radio preset stations on the bank (A, B, or C) currently selected.
- Push the ENTER switch UP ▲ or DOWN ▼ for more than 1.5 seconds to seek the previous/next radio station on the band currently selected (AM, FM) or SAT music channel (requires an active XM® satellite radio subscription).

For Audio CD and CD/CompactFlash® Card with MP3/WMA:
- Push the ENTER switch UP ▲ or DOWN ▼ for less than 1.5 seconds to return to the beginning of the current track/folder/file or skip to the next track/folder/file. Push several times to skip BACKWARD or FORWARD through multiple tracks/folders/files.
- Push the ENTER switch UP ▲ or DOWN ▼ for more than 1.5 seconds to skip to the previous/next CD in the 6-Disc CD Changer (if so equipped) or to the next folder on a CD/CompactFlash® card (with MP3/WMA).

For iPod®:
- Push the ENTER switch UP ▲ or DOWN ▼ for less than 1.5 seconds to skip to the previous/next track.
- Push the ENTER switch UP ▲ or DOWN ▼ for more than 1.5 seconds to rewind/fast forward search.

For Music Box™:
- Push the ENTER switch UP ▲ or DOWN ▼ for less than 1.5 seconds to return to the beginning of the current track or skip to the next track.
- Push the ENTER switch UP ▲ or DOWN ▼ for more than 1.5 seconds to change to the previous/next playlist.
3 **VOLUME CONTROL Buttons**
Press the – or + **VOLUME CONTROL** button to decrease or increase the volume of the source currently playing.

4 **BACK Button**
Press the **BACK** button to return to the previous function shown on the Information Display screen, to cancel a function if it is not complete, and to delete characters when using the on-screen keyboard.

5 **TALK/PHONE Button**
Press the **TALK/PHONE** button to activate the INFINITI Voice Recognition system. If a compatible Bluetooth®-enabled cellular phone has been paired to the vehicle and is selected, press the **TALK/PHONE** button to initiate, answer, or hang up a call.

6 **PHONE END Button**
Press the **PHONE END** button to hang up a phone call.
Steering Wheel Controls
Audio and Bluetooth® Hands-free Phone Systems

For Vehicles without the INFINITI Navigation System

1  **SOURCE Button**
Press to change between the following modes:
- Radio preset banks (A, B, C)
- Audio CDs or CDs with MP3/WMA in the in-dash CD player/changer (if loaded)
- iPod® (if so equipped and when connected)
- AUX (if an external device is connected)

2  **TUNING Switch**
For Radio:
- Push the **TUNING** switch UP ▲ or DOWN ▼ for less than 1.5 seconds to page through the radio preset stations on the bank (A, B, or C) currently selected.
- Push the **TUNING** switch UP ▲ or DOWN ▼ for more than 1.5 seconds to seek the previous/next radio station on the band currently selected (AM, FM) or SAT music channel (requires an active XM® Satellite radio subscription).

For Audio CDs and CDs with MP3/WMA:
- Push the **TUNING** switch UP ▲ or DOWN ▼ for less than 1.5 seconds to return to the beginning of the current track/folder/file or skip to the next track. Push several times to skip BACKWARD or FORWARD through multiple tracks.
- Push the **TUNING** switch UP ▲ or DOWN ▼ for more than 1.5 seconds to skip to the previous/next CD or to the next previous/next folder on the CD with MP3/WMA files.

For iPod® (if so equipped):
- Push the **TUNING** switch UP ▲ or DOWN ▼ for less than 1.5 seconds to skip to the previous/next track.
- Push the **TUNING** switch UP ▲ or DOWN ▼ for more than 1.5 seconds to rewind/fast forward search.

3  **VOLUME CONTROL Buttons**
Press the – or + side of the **VOLUME CONTROL** switch to decrease or increase the volume of the source currently playing.

4  **TALK/PHONE & PHONE END Switch**
- If a compatible Bluetooth®-enabled cellular phone has been paired to the vehicle and is selected, push the **TALK/PHONE** switch to answer and initiate (via Voice Recognition) phone calls.
- Push the **PHONE END** switch to end phone calls or to cancel an INFINITI Voice recognition session.
STEERING WHEEL CONTROLS
Cruise Control/Intelligent Cruise Control

Cruise Control
1. CANCEL Button
2. ACCEL/RES•COAST/SET Switch
3. ON/OFF Button

To Set Cruise Control:
1. Press the ON/OFF button. The CRUISE indicator light (located on the dot matrix display between the speedometer and tachometer) will illuminate.
2. Accelerate to the desired speed.
3. Push DOWN on the COAST/SET switch and release it. The CRUISE SET indicator light will illuminate. Cruise Control will be set to the desired speed.

Intelligent Cruise Control
(if so equipped)
1. CANCEL Button
2. ACCEL/RES•COAST/SET Switch
3. Following Distance Button
4. ON/OFF Button

The Intelligent Cruise Control system can be set to one of two cruise modes:
- Vehicle-to-vehicle distance-control cruise
- Fixed-speed control cruise

To Set Vehicle-to-Vehicle Distance-Control Cruise:
1. Press the ON/OFF button for less than 1.5 seconds. The CRUISE indicator light, the set distance and set vehicle speed indicator lights (located on the dot matrix display between the speedometer and tachometer) will illuminate in STANDBY mode.
2. Accelerate to the desired speed.
3. Push DOWN on the COAST/SET switch and release it. Cruise Control will be set to maintain your desired speed.
4. Press the Following Distance button repeatedly to change the set distance to the vehicle ahead between long, middle, and short. When a vehicle IS NOT detected ahead of you in the travel lane, the set speed will be maintained. When a vehicle IS detected ahead of you in the travel lane, the set speed will adjust to maintain the set distance.
driving controls

To Set Conventional Fixed-Speed Cruise:
1. While Cruise Control is OFF, press the CRUISE ON/OFF button and hold it down for more than 1.5 seconds. The CRUISE indicator light will illuminate.
2. Accelerate to the desired speed.
3. Push DOWN on the COAST/SET switch and release it. The CRUISE SET indicator light will illuminate. Cruise Control will be set to the desired speed.

Note: There are certain conditions under which vehicle-to-vehicle distance-control and/or fixed-speed cruise cannot be set or will automatically cancel. Three such conditions are shown below:
- When rain, snow, or dirt cover the system sensor (located in the front bumper opening).
- When the windshield wiper is operated at low or high speed.
- When strong light shines directly on the front of the vehicle (i.e. during sunrise or sunset).
- When the VDC system is OFF (to use the Intelligent Cruise Control system, turn ON the VDC system).

To Switch Between Two Cruise Control Modes:
When one of the two cruise modes is in use, you must first turn the system OFF, and then ON again (as instructed above) to select the other Cruise Control mode.

Manual Shift Mode – Paddle Shifters
(if so equipped)
When the Automatic Transmission selector lever is in DS (DRIVE SPORT) the paddle shifters located on the left and right side of the steering wheel allow you to enjoy manual gear selection — including downshift rev matching — with a pull of the paddle shifter lever.

When the transmission is in D (DRIVE) the paddle shifters may be used to temporarily change gears manually. Once the vehicle detects that the paddle shifters are no longer being used, the transmission will automatically return to D (DRIVE). Additionally, you can pull and hold the (+) paddle for 1.5 seconds to resume D (DRIVE) at any time.

Paddle Shifter Operation
To Shift Up: Pull the right-side paddle shifter towards you. The transmission will shift to a higher gear.

To Shift Down: Pull the left-side paddle shifter towards you. The transmission will shift to a lower gear.

Vehicle Dynamic Control
The Vehicle Dynamic Control (VDC) system operates when the vehicle is started. The vehicle should be driven with the VDC system ON for most driving conditions.

To Turn ON/OFF the VDC System:
Press the VDC OFF button. The VDC OFF indicator light (located in the tachometer) will illuminate when the system is OFF.

Press the VDC OFF button again to turn the system back ON.
**AUDIO SYSTEM**

**FM•AM•SAT RADIO WITH IN-DASH COMPACT DISC (CD) PLAYER/CHANGER**

Note: Only limited satellite radio reception is available and limited SAT-related information will be displayed when the RADIO AM-FM Button / AM-FM-SAT Button is pressed unless an XM® satellite radio service subscription is active.

1. **VOL (VOLUME)/PUSH ON-OFF Knob**
   - Push to turn ON/OFF the audio system.
   - Rotate to adjust volume level.

2. **TUNE/FOLDER•PUSH/AUDIO Knob**
   - Rotate to manually tune radio stations **UP** or **DOWN** (e.g. tune from 105.1 to 105.3).
   - Rotate to select different Music Box™ songs by artist, category, etc., or to select MP3/WMA folders if a CD with MP3/WMA is in the in-dash CD player.
   - Push to display, then rotate to adjust: Bass, Treble, Balance, and Fade.

3. **Station PRESET/DISC Select Buttons (1-6)**
   Press to select preset radio stations and which CD to play (if equipped with 6-Disc CD changer).

4. **PRESET A-B-C Button** – Press to change between radio preset banks A, B, and C. Use to select your customized preset radio stations.
   Note: Stations can be selected from any band (AM, FM, SAT) and stored in each preset bank.
5 SCAN/RPT Button

For Radio:
Press to scan within a band (AM, FM, SAT). The scan stops at each station for 5 seconds. When you find a station that you want to listen to, press the button again to stop at that station.

For Other Media:
Press the SCAN/RPT button multiple times to change the play pattern as follows:

<table>
<thead>
<tr>
<th>CD</th>
<th>CD with MP3/WMA</th>
<th>CompactFlash®</th>
<th>iPod®</th>
<th>Music Box™</th>

Note: All DISC MIX and ALL DISC RPT are available for 6-disc CD equipped model only.

6 SEEK•CAT Button

Press and release –

- For AM/FM/SAT: Seeks FORWARD, stopping at the next broadcasting station.
- For Audio CD, CD/CompactFlash® Card with MP3/WMA, iPod®, and Music Box™: The track currently playing will replay from the beginning. Press again to select the previous track.

Press and hold down for more than 1.5 seconds –

- For Audio CD, CD/CompactFlash® Card with MP3/WMA, iPod®, and Music Box™: Rewinds through the track currently playing.

7 TRACK Button

Press and release –

- For AM/FM/SAT: Tracks BACKWARD, stopping at the previous broadcasting station.
For Audio CD, CD/CompactFlash® Card with MP3/WMA, iPod®, and Music Box™: Skips to the next track.

Press and hold down for more than 1.5 seconds –

For Audio CD, CD/CompactFlash® Card with MP3/WMA, iPod®, and Music Box™: Fast forwards through the track currently playing.

8 CD LOAD Button (if so equipped)
- Press for less than 1.5 seconds to load a single CD.
- Press for more than 1.5 seconds to load up to 6 CDs in succession. Choose the loading location by pressing a Disc Select (1-6) button.

9 CD INSERT Slot
- Insert a CD into the slot to load it into the CD player.

10 CD EJECT Button
- Press for less than 1.5 seconds to eject the CD currently playing.
- Press for more than 1.5 seconds to eject all CDs stored in the 6-Disc CD changer (if so equipped). The CDs will eject one-by-one.

### Audio buttons located around the INFINITI Controller

**RADIO AM•FM Button** (for vehicles without the INFINITI Navigation system)

AM•FM•SAT Button** (for vehicles with the INFINITI Navigation system)

Press to change radio bands: AM > FM > SAT (if XM® Satellite Radio is activated).

Note: If you are listening to XM® Satellite Radio; you can press the TEXT key on the Information Display screen, and then ENTER, to display information about the music playing, including SAT Channel name/music genre, artist, CD title, and song title.

**AUX Button** (for vehicles without the INFINITI Navigation system)

While a compatible video device such as a camcorder, video game player, or portable DVD player is connected to the auxiliary input jacks (located in the center console), press the AUX button to display images on the Information Display screen.

Note: Images will be displayed on the Information Display screen only when the parking brake is engaged.

**DISC Button** (for vehicles without the INFINITI Navigation system)

Press to activate audio CD and CD with MP3/WMA functions.

**DISC•AUX Button** (for vehicles with the INFINITI Navigation system)

Press to activate and display the following modes:
- Audio CD or CD with MP3/WMA in the in-dash CD player
- CompactFlash®
- AUX
- iPod®
- Music Box™

**STATUS Button**

Press repeatedly to display the status of audio, climate control, fuel consumption, and navigation system functions (if so equipped).
media center

How to Customize Audio Settings

Bass, Treble, Balance, Fade, Speed Sensitive Volume, Precision Phased Audio, BOSE® AudioPilot®
(if so equipped)

1 Press the SETTING button.

2 Highlight Audio, then press ENTER.

3 Scroll through the list of audio settings. When the desired selection is highlighted on the screen, press ENTER. Use the INFINITI Controller or the touch screen to make adjustments, then press ENTER.

Touch the “Text” key on the Information Display screen while playing a CD, CompactFlash®, or SAT Radio to view text details on the artist, title, track or song.

How to Customize Radio Presets

With the PRESET A-B-C button, you can program up to 18 radio stations (AM, FM, and SAT*) into 3 separate preset memory banks – 6 stations for each PRESET bank.

1 Press the PRESET A•B•C button to select bank A, B, or C. Note: PRESET A, B, or C will illuminate on the Information Display screen to show which bank is activated.

2 Press the RADIO AM•FM button / AM•FM•SAT button to select the AM, FM, or SAT* radio band.

3 Tune to the desired station using the SEEK•CAT or TRACK buttons, or the TUNE/FOLDER•PUSH/AUDIO knob.

4 Press and hold down the desired Station Preset/Disc Select button (1 through 6) until you hear a “beep” sound.

5 Repeat the above steps to program up to 18 stations.

Note: AM, FM, and SAT* stations can be mixed within any of the A, B, or C preset banks.

*Only available if an XM® satellite radio service subscription is active.
Music Box™
(For vehicles with the INFINITI Navigation System)
Refer to Audio System, beginning on page 19, and Steering Wheel Controls, beginning on page 14, to view audio system button functions applicable to Music Box™ operation.

The Music Box™ hard drive audio system can record and store songs from a CD being played in the in-dash CD player.

Note: Music cannot be recorded to the hard drive from the CompactFlash® player.

To Record a CD to the Hard Drive:
1. Insert a CD into the slot.
2. Press the REC button on the Information Display screen.
3. RECORD CD will display on the Information Display screen when a CD is recording to the hard drive. The REC button will change to a STOP button when a CD is recording.

Notes:
- The system starts playing and recording the 1st track on the CD when the “REC” key is selected.
- Touch the STOP button on the Information Display screen to stop the recording process at any time. All tracks that were played before the CD was stopped will be stored.

Music Box™ Settings and Automatic Recording

To Automatically Record Songs to the Hard Drive:
If the “Automatic Recording” function is ON, recording to Music Box™ will automatically start whenever a CD begins to play in the in-dash CD player.
1. Press the DISC•AUX button until the Music Box™ mode displays on the Information Display screen.
2. Highlight Menu, then press ENTER.
3. Highlight Music Box™ System Information, then press ENTER.
4. Highlight Music Box™ Settings, then press ENTER.
5. Highlight Automatic Recording, then press ENTER to turn ON/OFF the feature.

To Search for Missing Titles:
If titles of CDs and/or songs recorded to Music Box™ are not displayed, they can be acquired using one of the following methods:
- Retrieve from HDD. Search for the title using the Gracenote® database in the hard drive.
- Or, select MENU, and highlight Transfer Missing Titles, then press ENTER to transfer the information of the CD recorded without titles to a CompactFlash®. Visit www.infinitiusa.com/music-update online for complete instructions.
- Use your PC to update the titles onto the CompactFlash® card.
- Transfer the titles from the CompactFlash® card back to the Music Box™.
**CompactFlash® (CF) Player**
(For vehicles with the INFINITI Navigation System)
Refer to Audio System, beginning on page 19, and Steering Wheel Controls, beginning on page 14 for audio system button functions applicable to CompactFlash® operation.

1. Remove the CompactFlash® player cover and insert a CompactFlash® card into the slot.
2. Press the DISC•AUX button until the CompactFlash® mode displays on the Information Display screen.

**Interface System for iPod®**
(if so equipped)
Refer to Audio System, beginning on page 19, and Steering Wheel Controls, beginning on page 14 for audio system button functions applicable to iPod® operation.

Your vehicle is equipped with a specialized interface cable for connecting an iPod® to the vehicle audio system.

1. Connect the vehicle side of the cable to the vehicle connector in the center console first.
2. Connect the other end of the cable to your iPod®. The INFINITI logo and “Ok to disconnect” will display on the iPod® screen when the connection is active.
3. Use the INFINITI Controller to customize your playlist from the iPod® mode MENU list shown on the Information Display screen. Choose from menu items such as Playlists, Podcasts, Songs, Albums, Artists, Genres, Composers, and Audiobooks. Highlight your selection and press ENTER.

Notes:
- The iPod® can be operated only through the vehicle audio system and steering wheel controls while the iPod® is connected to the vehicle.
- Only Apple devices that support charging via FireWire® will charge when the interface cable connection is active and the ignition switch is in ON or ACC mode.
- You can view videos on the Information Display screen by disconnecting the interface system cable and connecting an A/V cable (not included) from your iPod® to the auxiliary input jacks located inside the center console. The parking brake must be engaged. Individual settings for playback can be made by selecting Settings on the Information Display screen.
BLUETOOTH® Hands-free Phone System

Refer to www.infinitiusa.com/bluetooth for a compatible phone list and Frequently Asked Questions section.

With an overhead microphone and sound transmitted through the audio system speaker, the Bluetooth® Hands-free Phone system utilizes Bluetooth® wireless technology and voice recognition to provide hands-free cellular phone communication.

Pairing Your Phone

Before you can use the hands-free feature, you will need to set-up, or pair, the system to recognize your cellular phone(s). Up to 5 Bluetooth®-enabled phones can be paired to this system. After the initial one-time set-up, the system will automatically connect upon start-up as long as your phone is in range and available. The pairing procedure for cellular phones varies according to each phone model. For a list of compatible phones and detailed pairing instructions, please visit www.infinitiusa.com/bluetooth.

For Vehicles with the INFINITI Navigation System

Switching to a Different Paired Phone

1. Press the SETTING button.
2. Highlight Phone, then press ENTER.
3. Highlight Bluetooth Setup, then press ENTER.
4. Highlight Paired Phone List, then press ENTER.
5. Highlight the desired phone, then press ENTER.

Setting Up Your Phonebook – Adding New Entries

Up to 40 phone numbers can be stored in the phonebook.

1. Press the SETTING button.
2. Highlight Phone, then press ENTER.
3. Highlight Phonebook, then press ENTER.
4. Highlight None (Add New), then press ENTER.
5. Choose one of the following options on the Information Display screen:
   - Enter Data by Keypad: Manually input names/numbers.
   - Copy from Downloaded Phonebook: Depending on your cellular phone, you may be able to copy your entire phonebook from your cellular phone to the vehicle’s phonebook. If this option is available, “Transfer phonebook from connected phone?” will display on the Information Display screen. Highlight Yes and press ENTER if you wish to copy the entire cellular phone phonebook to the vehicle’s phonebook.
Copy from Outgoing Call Logs: Choose names/numbers from a list of calls you have made in the vehicle.

Copy from Incoming Call Logs: Choose names/numbers from a list of calls you have received in the vehicle.

Transfer via Bluetooth: Activates the Bluetooth® connection. Depending on your cellular phone, you may be able to transfer a person’s name and phone number directly from your cellular phonebook to the in-vehicle phonebook via Bluetooth®. This procedure varies according to each manufacturer. Please refer to your cellular phone Owner’s Manual for details.

6 When the “Add a voicetag?” screen appears, highlight Yes and press ENTER to add a voicetag (voice-activated speed dial command used with the INFINITI Voice Recognition system).

7 After the tone, clearly say the name of the contact.

Making A Phone Call
1 Press the PHONE button.
2 Highlight Call (Phonebook), then press ENTER.
3 Highlight the name of the person you wish to dial, then press ENTER. Dialing will begin.

Volume of Outgoing Calls
If you call someone and are told that the volume on your call is too loud or too soft, perform the following steps to increase or decrease volume:
1 Press the SETTING button.
2 Highlight Volume and Beeps, then press ENTER.
3 Highlight Outgoing Call, then press ENTER.
4 Adjust the Outgoing Call volume UP or DOWN by rotating the INFINITI Controller Center Dial. When the volume is adjusted to your liking, press the ENTER button to set it.
Receiving A Phone Call
When you receive a phone call, the Phone menu screen will display and a ring tone will sound (if enabled) through your audio system.

To Accept a Call:
- Press the PHONE button on the steering wheel or press the PHONE button on the instrument panel.
- Highlight Answer on the Information Display screen, then press ENTER.

To Reject a Call:
Highlight Reject Call on the Information Display screen, then press ENTER.

Ending A Phone Call
To “hang up” your phone at the end of a call or to disconnect during call placement:
- Press the TALK/PHONE button on the steering wheel.
- Press the PHONE button on the instrument panel (if so equipped).
- Highlight Hang up on the Information Display screen, then press ENTER.

System Operating Tips
- The interior of the vehicle should be as quiet as possible. Close the windows to eliminate the surrounding noises.
- Wait until the tone sounds before speaking a command.
- Speak in a natural conversational voice with minimal pauses between words.
- To increase or decrease the volume of the voice prompts, press the Volume Control buttons on the steering wheel or rotate the audio VOL (Volume)/Push ON•OFF knob while the system is responding.
- To initiate a Voice Recognition session, press the TALK/PHONE button.
- To cancel a Voice Recognition session, press the PHONE END button.
- To go back to the previous command, say “Go back” or “Correction.”

For Vehicles without the INFINITI Navigation System
(if so equipped)

Switching to a Different Paired Phone
1. Press the TALK/PHONE button.
2. Say “Setup.”
3. Say “Select Phone.”
4. When prompted, say the name of the desired cellular phone.
5. When the system accepts the name, you will be asked to confirm it as correct. The selected cellular phone will remain active until the ignition switch is pushed to LOCK (OFF) mode or another cellular phone is selected.
Setting Up Your Phonebook – Adding New Entries
Each paired phone has its own dedicated phonebook. Each phonebook can store up to 40 names. Each name can have up to 4 locations/phone numbers: Home, Office, Mobile, and Other.

1. Press the TALK/PHONE button.
2. Say “Phonebook.”
3. When prompted, say “New Entry.”
4. When prompted, say the name of the new entry. For example, say “Michelle.” If the name is too short or too long, or if it sounds too much like a name that is already stored in the phonebook, the system will prompt you to say a name again. Modify the name and say it again.
5. When the system accepts the name, you will be asked to confirm it as correct.
6. The system will ask for a location (Home, Office, Mobile, or Other). Select and say a location. The system will acknowledge the location.
7. When prompted, say the phone number. For example, say “five five five one two one two.” The system will repeat the number and prompt you for the next command.
8. When you have finished entering the number, say “Store.” The system will confirm the name, location, and phone number.
9. The system will then ask if you would like to store another location for the same name. Say “Yes” or “No.” If you do not respond to the system prompt, the system will end the New Entry session.

Making a Phone Call
1. Press the TALK/PHONE button.
2. Say “Phone.”
3. When prompted, do one of the following:
   - Say [voicetag]. For example, say “Michelle Home.”
   - Say [phone number]. For example, say “123-456-7891.” For best results, say phone numbers as single digits in small groups.
   - Say “Redial” to dial the previous phone number called by the system.
   - Say “Callback” to dial the last incoming phone call received by the system.
4. Follow the system prompts and respond with the requested information until the operation is completed.

Note: For international phone calls, say “International Call.”

Receiving a Phone Call
When you receive a phone call, a ring tone will sound through the audio system.
To Accept the Call, press the TALK/PHONE button.
To Reject the Call, press the PHONE END button.

Ending a Phone Call
To “hang up” your phone at the end of a call or to disconnect during call placement, press the PHONE END button.
To Turn ON the Climate Control System:
- Push the PUSH•AUTO knob to turn ON the system.

Note: The Climate Control system will activate using the settings last selected.

The AUTO mode setting can be used year round with the top up or down. It allows the system to self adjust to constantly maintain a selected temperature (automatic cooling or dehumidified heating). Air flow distribution and fan speed are controlled automatically. The Dual-Zone, Adaptive Climate Control System automatically adjusts according to the outside temperature and your speed when the top is closed.

AUTO Mode vs. DUAL Mode
(if so equipped)
- AUTO mode allows the driver to control temperature for self and passenger.
- DUAL mode allows the driver and passenger to control their side cabin temperatures.

Push the PUSH•DUAL knob to turn DUAL mode ON and OFF. An indicator light next to the PUSH•DUAL knob illuminates and the word “DUAL” can be seen on the Information Display screen when DUAL mode is operating. Rotating the PUSH•DUAL knob while the system is operating in AUTO mode will also turn DUAL mode ON.

To Change Temperature Settings:
- In AUTO mode, rotate the PUSH•AUTO knob RIGHT or LEFT to increase or decrease the temperature to set it to the desired level. For normal automatic climate control operation, adjust the temperature to about 75°F.
- In DUAL mode, the passenger can rotate the PUSH•DUAL knob to adjust their temperature setting, while the driver still controls his/her setting using the PUSH•AUTO knob.
To Control Fan Speed:
1. Press the Fan Speed Control buttons, + or – to manually adjust fan speed UP or DOWN. The illuminated fan speed indicator on the Information Display screen will change as fan speed is increased/decreased. The mode will change from AUTO to MANUAL mode (“AUTO” no longer appears on the screen).
2. Press the PUSH•AUTO knob to return to automatic control of fan speed.

To Turn OFF the Climate Control System:
Press the OFF button, Climate Control OFF will briefly display on the Information Display screen.

To Turn ON the Air Conditioning:
1. Push the PUSH•AUTO knob to turn ON the system.
2. Press the A/C button until A/C ON is briefly displayed on the Information Display screen and the indicator light on the A/C button turns ON.

To Turn ON the Heat:
1. Press the A/C button until A/C OFF is displayed on the Information Display Screen and the indicator light on the A/C button turns OFF.
2. Rotate the PUSH•AUTO knob RIGHT or LEFT (in Standard mode) or the PUSH•DUAL knob RIGHT or LEFT (in DUAL mode) to increase or decrease the cabin temperature.

Note: For optimum system operation, DO NOT set the inside cabin temperature lower than the outside air temperature.

To Choose Fresh or Recirculated Air:
Press and hold the Fresh Air/Air Recirculation (Intake Air Control) button for more than 2 seconds to select between modes:
- Fresh (outside) air for cooling/heating/defrosting. The indicator light on the side of the Intake Air Control button will illuminate and will briefly display on the Information Display screen when fresh air is selected.
- Recirculated (inside) air for maximum A/C cooling performance and to prevent unwanted outside odors from entering the vehicle. The indicator light on the side of the Intake Air Control button will illuminate and will briefly display on the Information Display screen when recirculated air is selected.

Notes:
- Recirculated Air mode cannot be activated when the system is set to A/C and the front Defroster is ON.
- Extended use of recirculated air may cause the inside of the windows to fog up.
- While in AUTO mode, intake air is also controlled automatically. To manually control intake air while in AUTO mode, press the Intake Air Control button. To return to Automatic Control mode, press and hold down the Intake Air Control button for approximately 2 seconds. Both indicator lights on the button will flash twice. Intake air will once again be automatically controlled.
To Manually Change Air Flow:
Press the **MODE** button repeatedly to select air flow location.

- Air flows from center and side vents.
- Air flows from center and side vents, plus foot outlets.
- Air flows mainly from foot outlets.
- Air flows from the front defroster and foot outlets.

Note: The air flow indicator symbols will illuminate on the Information Display screen.

To Turn ON/OFF the Front Defroster:
1. Press the **Front Window Defroster** button 🛡️ to turn it **ON**. The indicator light on the button will illuminate.

Notes:
- Pressing the **Front Window Defroster** button 🛡️ provides the best possible defrost action. This is the preferred method for quickly defrosting the window (rather than choosing the front defroster and foot outlets 🛡️ in flow control mode, which is less efficient).
- When you press this button, you may hear a click noise from the engine area. This is normal. The Air Conditioner compressor is being activated. With **A/C ON**, moisture is pulled from the air, helping to defrost the inside of the windows more quickly.

2. Rotate the **PUSH•AUTO** knob **RIGHT** or **LEFT** to set the desired temperature.

3. Press the **+ Fan Speed Control** button 🌬️ to set fan speed to maximum.

4. Press the **Front Window Defroster** button again to turn it **OFF**.

To Turn ON/OFF the Rear Defroster:
1. Press the **Rear Window Defroster** button 🛡️ to turn it **ON**. The indicator light will illuminate on the button.

2. Press the button again to turn it **OFF**. Or, it will turn **OFF** automatically after approximately 15 minutes.

**Advanced Climate Control System**
(if so equipped)
When the top is closed, the Advanced Climate Control system utilizes ion control purifiers and air intake control air filters automatically help keep the air inside the vehicle clean.

**ION Control**
(if so equipped)
Air quality within the vehicle is automatically adjusted when the heater or air conditioner is ON. The Plasmacluster™ ionizer helps remove or neutralize interior airborne contaminants. This ion control feature alternates between two modes: **Clean** and **Ion Control**.

- When **Clean** mode is operating, the ion symbol 🌬️ on the vehicle’s Information Display screen will illuminate blue.
- When **Ion** mode is operating, the ion symbol 🌬️ on the vehicle’s Information Display screen will illuminate green.
Heated Front Seats
To Turn ON/OFF or Adjust the Driver’s or Passenger’s Heated Seats:
Start the engine.
- Rotate the corresponding seat heater control to the right to turn ON the seat heater and to increase the temperature. The indicator light on the control dial will illuminate when the seat heater is ON.
- Rotate the corresponding seat heater control to the left to decrease the temperature. Rotate the control dial completely to the left to turn OFF the seat heater.

Climate-Controlled Seats
(if so equipped)
To Turn ON/OFF or Adjust the Driver’s or Passenger’s Climate-Controlled Seats:
Start the engine.
- Rotate the corresponding seat control to the heat side or to the cool side. The indicator light on the control dial knob will illuminate when the climate-controlled seat is ON.
- Rotate the corresponding seat control to the left for cool, or the right to increase the desired temperature.
- Rotate the corresponding seat control to the (center) position to turn OFF the climate-controlled seat. The indicator light on the control dial turns OFF when the climate-controlled seat is OFF.

Note: The climate-controlled seat blower remains on low speed for approximately 60 seconds and then increases fan speed, after turning the control dial ON or selecting the desired temperature.
INFINITI Navigation System
(if so equipped)
Note: The Navigation Mapping information currently installed in your vehicle is downloaded to the vehicle’s hard drive. Should you wish to upgrade or change your Mapping information, contact your INFINITI dealer.

1 Information Display Screen – Displays Navigation menus and Map.
2 ZOOM OUT Button – Increases the Map view, showing more area.
3 ZOOM IN Button – Decreases the Map view, showing greater detail.
4 DEST (Destination) Button – Displays the Address Book and alternative ways to program a destination (e.g. Street Address, Previous Destinations, Points of Interest and other destination programming methods).
5 ROUTE Button – Displays route guidance control functions.
6 MAP Button – Displays the Navigation Map.
7 ENTER Button – Press to select menu items highlighted on the Information Display screen.
8 Center Dial – Turn the dial to navigate UP, DOWN, and ACROSS the Information Display screen. When the Map is displayed, rotate the dial to ZOOM OUT and ZOOM IN.
9 Main Directional Buttons – Press to navigate UP, DOWN, and ACROSS the Information Display screen.
10 Additional Directional Buttons – Depending on which map is displayed (Plan View or Birdview™), use these buttons to make “fine tuned” movements around the Information Display screen.
11 BACK Button – Press to return to the previous function shown on the Information Display screen and to delete characters when using the on-screen keyboard.
12 VOICE Button – Press to repeat a Navigation instruction (if a destination has been set).
14 INCREASE BRIGHTNESS Button – Press to increase the Information Display screen brightness.
15 DAY•NIGHT/OFF/BRIGHTNESS Button
   ■ Press to switch the Information Display screen between day view and night view.
While the adjustment bars appear on the screen, adjust the Information Display screen brightness **UP** or **DOWN** by rotating the INFINITI Controller Center Dial.

Press and hold down to turn **OFF** the display. To resume display, press again.

**DECREASE BRIGHTNESS Button** – Press to decrease the Information Display screen brightness.

---

**STORING YOUR HOME ADDRESS (AND OTHER ADDRESSES) IN YOUR ADDRESS BOOK**

1. Press the **DESTINATION** button.
2. Highlight **Address Book**, then press **ENTER**.
3. Highlight **Home Location (Add New)**, then press **ENTER**.

4. “Home location not stored. Store now?” will appear on the screen. Highlight **Yes**, then press **ENTER**.

5. Highlight **Street Address**, then press **ENTER**.

6. Input the House Number by highlighting each character and pressing **ENTER**.
7. Once complete, highlight **OK**, then press **ENTER**.
8. Input the Street Name by highlighting each character and pressing **ENTER**.
9. Once complete, highlight **List**, then press **ENTER**.
10. Highlight the **correct street** and **city** from the list, then press **ENTER**.
11. Press **ENTER** again. “**Home Location Stored**” will appear on screen.
12. Press the **MAP** button to return to the Map screen.

**Notes:**

- You can store other addresses using the procedure above. In step 3, highlight **None (Add New)**, then press **ENTER**.
- In step 5, you may also choose alternate ways to store an address, including **Map** and **Previous Dest.** (Destinations).
- A unique sound (e.g. a chime, a dog bark, etc.) can be “attached” to your Home or Other Addresses in your Address Book. If a sound is attached to an Address Book entry, whenever you approach that location, the sound will be heard.
Turning ON/OFF Voice Guidance and Adjusting Volume
1. Press the SETTING button.
2. Highlight Volume and Beeps, then press ENTER.
3. Highlight Guidance Voice, then press ENTER to choose ON or OFF. The indicator light will illuminate when Voice Guidance is ON.
4. Highlight Guidance Volume, then press ENTER. Adjust the volume by rotating the INFINITI Controller Center Dial, then press ENTER.

Store Current Location
You can store the current physical location of your vehicle in your Address Book.
1. While the Map screen is displayed, press ENTER.
2. Highlight Store Location, then press ENTER. A confirmation message will appear, confirming that the location has been stored to your Address Book. The location will be stored in the first available position in your Address Book.
3. Press the MAP button to return to the Map screen.

Programming A Destination
There are several methods you can use to program your Navigation system to guide you to a desired destination point. First, narrow down your destination by specifying the region. To begin, press the DEST button. Highlight the CHANGE REGION map, then press ENTER. Select the appropriate region, then press ENTER. Shown here are two of the most common destination programming methods.

Note: The vehicle must be stationary to manually program a destination, or you may program a destination using Voice recognition while driving.
Programming A Destination – Street Address
1. Press the DESTINATION button.
2. Highlight Street Address, then press ENTER.
3. Input the House Number by highlighting each character and pressing ENTER.
4. Once complete, highlight OK, then press ENTER.
5. Input the Street Name by highlighting each character and pressing ENTER.
6. Once complete, highlight List, then press ENTER.
7. Highlight the correct street and city from the list, then press ENTER.
8. Highlight Start, then press ENTER to set the destination, calculate the route, and begin route guidance.

Programming A Destination – Points of Interest
1. Press the DESTINATION button.
2. Highlight Points of Interest, then press ENTER.
3. Highlight a main category (e.g. Restaurant, Shopping, Travel, etc.), then press ENTER.
   Note: Depending on the category, you may be prompted to make additional selections.
4. Highlight Nearby POI (Points of Interest), then press ENTER.
5. Highlight the desired selection from the list, or enter the name of the destination, then press ENTER.
6. Highlight Start, then press ENTER to set the destination, calculate the route, and begin route guidance.

Note: For more information on setting POIs and to view a comprehensive Category list, refer to Setting a destination in the 2009 INFINITI Navigation System Owner's Manual for more information.
INFINITI Voice Recognition System

The voice recognition system allows hands-free operation of certain vehicle functions using voice commands. Available commands are announced by the system and shown on the Information Display screen. Simply follow the instructional prompts given by the system to complete the desired operation.

There are two modes of operation available for this system:
- Standard Mode
- Alternative Command Mode

Note: The voice recognition system cannot be operated when the hard top is open.

In Standard Mode (the default setting), the following systems can be operated using voice recognition commands:
- Phone
- Navigation
- Vehicle Information
- Help

When the Alternate Command Mode is activated, additional systems such as Audio and Climate Control can be operated using Voice Recognition commands. Refer to “Alternate Command Mode” later in this section for more information about this feature.

Voice Recognition User Guide

A simplified User Guide containing basic instructions for using the voice recognition system is available for reference.

1. Press the SETTING button.
2. Highlight Others, then press ENTER.
3. Highlight Voice Recognition, then press ENTER.
5. Highlight the desired topic, then press ENTER. The tutorial will begin.
To Operate the Voice Recognition System:

1. Press the TALK/PHONE button located on the steering wheel. The system will respond, “Would you like to access Phone, Navigation, Information, or Help?” and the Information Display screen will change to a list of available commands to speak.

2. After the tone, say one of the command choices. The system will then proceed to the next step. Continue listening to the prompts and responding with the requested information until the operation is completed.

If you want to repeat a step or if the system incorrectly recognizes your command, press the BACK button on the steering wheel or on the INFINITI Controller.

If the system does not recognize your command, repeat the command. Avoid raising the volume of your voice or slowing down your speech.

System Operating Tips

Note: The voice recognition system cannot be operated when the retractable hard top is open.

- The interior of the vehicle should be as quiet as possible. Close the windows to eliminate the surrounding noises.
- Wait until the tone sounds before speaking a command.
- Speak in a natural conversational voice with minimal pauses between words.

Speaking Phone Numbers

The system provides two commands for entering and dialing a phone number: “Dial Number” and “International Call.” The “Dial Number” command is used for domestic phone numbers up to 11 digits in length (including the long-distance dialing prefix “1”). The “International Call” command is used when more than 11 digits need to be dialed. When using these two commands, follow the phone digit speaking rules below:

- The system will accept single digits 0 (zero) to 9.
- The long-distance dialing prefix “1” is not required when making a call.
- When saying a phone number like 800-662-6200, the system will accept “eight-hundred” in addition to “eight zero zero” or “eight oh oh.”
- For *, #, and +, say “Star,” “Pound,” or “Plus,” respectively.
Voice Command Usage – Phone System

Making a Phone Call
1. Press the TALK/PHONE button on the steering wheel. The system will respond, “Would you like to access Phone, Navigation, Information, or Help?” and the Information Display screen will change to a list of available commands to speak.

2. After the tone, say “Phone.” The system will display the four available phone commands and say “Please say Dial Number, Redial, Phonebook, or International Call.”

3. After the tone, do one of the following:
   ■ Say “Dial Number” to dial a 7, 10, or 11 digit phone number. Follow the prompts to begin saying the phone number, starting with the area code. After the phone number has been recognized, say “Dial.” If incorrect, say “Change Number.”
   ■ Say “Redial” to hear the last phone number dialed and begin dialing.
   ■ Say “Phonebook” to say a voicetag or a phone number from the displayed list.
   ■ Say “International Call” to dial a phone number that has more than 11 digits.

Voice Command Usage – Navigation System

Programming a Destination – Street Address
1. Press the TALK/PHONE button on the steering wheel. The system will respond, “Would you like to access Phone, Navigation, Information, or Help?” and the Information Display screen will change to a list of available commands to speak.

2. After the tone, say “Navigation.” The system will respond, “Please say Address, Places, Home, or Previous Destinations.”

3. Say “Address”.

4. The system will prompt you for additional information, such as the name of the state, city, street, and house number. Follow the prompts given by the system to complete the desired operation.

Notes:
■ To improve accuracy of street names, say the entire street name including Boulevard, Way, North, South, Road, etc.
■ If you do not know the house number when asked, say “No House Number,” and the system will route you to a default location on the street.
**Alternate Command Mode**

You can change to an Alternate Command Mode that enables operation of additional systems using Voice Recognition. When this mode is active, the voice command menu prompts are turned **OFF** and an expanded list of commands can be spoken.

**To Turn ON/OFF the Alternate Command Mode:**
1. Press the **SETTING** button.
2. Highlight **Others**, then press **ENTER**.
3. Highlight **Voice Recognition**, then press **ENTER**.
4. Highlight **Alternate Command Mode**, then press **ENTER** to select **ON** or **OFF**.

**To View a List of Expanded Commands:**
1. Press the **INFO** button.
2. Highlight **Voice Recognition**, then press **ENTER**.
3. Highlight **Command List** then press **ENTER**.
4. Highlight the desired command list option, then press **ENTER** to display the expanded list of available commands.

When **Alternate Command Mode** is **ON**, perform the Speaker Adaptation procedure to train the system to your voice.

Refer to the 2009 INFINITI Navigation System Owner’s Manual for detailed information on Speaker Adaptation and use of the Alternate Command Mode.
AUTOMATIC DRIVE POSITIONER MEMORY SYSTEM
(if so equipped)

When programmed, the Automatic Drive Positioner can adjust the driver’s seat, steering column, and outside mirrors to two memorized positions.

To Set Customized Seat, Steering, and Mirror Position Memory:
1. Push the ignition switch to **ON** mode. Keep the transmission in **P (PARK)** for vehicles with **Automatic** transmission and in **N (NEUTRAL)** with the parking brake applied for vehicles with **Manual** transmission.
2. Adjust the driver’s seat, steering wheel, and outside mirrors to the desired positions.
3. Press the **SET** button. The indicator lights on both **Memory** buttons 1 and 2 will illuminate.
4. **Within 5 seconds**, press **Memory** button 1 or 2 and hold down for at least 1 second. The indicator light on the **Memory** button you select will illuminate solid for approximately 5 seconds. Seat/steering/mirror memory is now set to your preference.
5. **To link the seat/steering/mirror memory to your Intelligent Key:**
   - While the indicator light on the **Memory** button is illuminated (see step 4, above), press the **UNLOCK** button on your Intelligent Key. The indicator light on the **Memory** button chosen will blink **ON** and **OFF** approximately 10 times. The memory is now matched to the Intelligent Key. You may set the second seat/steering/mirror memory positions to your other Intelligent Key by repeating the steps above.

   **Note:** After step 5 is performed one time to link the seat/steering/mirror memory to your Intelligent Key, you DO NOT need to perform this step again if new seat/steering/mirror memory positions are saved in the future. New memory positions are automatically linked to your Intelligent Key after step 5 is performed one time.

SEAT SYNCHRONIZATION FUNCTION
(if so equipped)

When the driver’s seat is moved to a new position, the steering column and outside mirrors can be set to automatically adjust, or “synchronize,” along with the seat position.

Notes:
- Synchronization of the steering column and mirrors is set to **OFF** as the DEFAULT position in your vehicle at time of delivery.
- If the outside mirrors or the steering wheel reaches its operating limit of range, seat synchronization will suspend operation. Operation can be restored by driving or by pressing a Memory button (if programmed).

To Turn ON/OFF Seat Synchronization:
Hold the **SET** button down for more than 10 seconds with the ignition switch in **LOCK (OFF)** mode. The indicator light on the Memory buttons will blink twice to indicate **ON**, and once to indicate **OFF**.

**Note:** The indicator light on a programmed memory button will illuminate after 5 seconds and then go off. Continue holding the SET button for more than 10 seconds to turn Seat Synchronization **ON** or **OFF**.
**Rear View Monitor**

When the Automatic Transmission is in **R (Reverse)**, the Information Display screen will automatically change to view the area directly behind the vehicle.

Approximate Distance to Objects:
- Green = 7 – 10 feet
- Yellow = 3 feet
- Red = 1.5 feet

**Adaptive Front Lighting System**

(If so equipped)

As you turn **Left** or **Right** or drive along winding roads, the Adaptive Front Lighting System (AFS) moves your lowbeams **Left** or **Right** according to your vehicle’s steering pattern and speed. The lowbeams swivel to increase visibility ahead of you and on the sides of the road.

**To Turn OFF AFS:** Push the **OFF** side of the AFS **ON/OFF** switch.
- The **AFS OFF** indicator inside of the speedometer will illuminate when AFS is **OFF**.
- AFS will remain **OFF** until you push the switch back to the **ON** position.

Note: When the vehicle is stopped or traveling at an extremely slow speed, the headlights WILL NOT SWIVEL when you turn the steering wheel to the **Left**.

**Rain-Sensing Auto Wiper System**

(If so equipped)

Using a rain sensor located in the upper part of the windshield, the rain-sensing auto wiper system when **ON** can automatically adjust the wiper speed in accordance to the rainfall and the vehicle’s speed.

**To Turn ON the rain-sensing auto wiper feature**
1. Push the ignition switch button to the **ON** mode.
2. Pull the wiper control lever down one notch to the **INT (Intermittent)** position. The wiper will sweep once indicating the rain-sensing feature is **ON**.

The level of rain sensor sensitivity can be adjusted by rotating the knob toward the front (High) or toward the rear (Low).

**To turn OFF the rain-sensing auto wiper feature**

Pull up the wiper control lever to the **OFF** position, or, pull down the lever to the **LO** or **HI** position. The rain-sensing auto wipers will turn **OFF** when the rain sensor does not detect rain.

Note: The rain-sensing auto wipers are intended for use during rain. If the wiper control lever is left in the **INT** position, the wipers may operate unexpectedly when moisture hits the sensor.
**Auto-Dimming Inside (Rear View) Mirror**
(If so equipped)

The auto-dimming feature changes reflection depending on the headlight intensity of the vehicle behind you. This feature is automatically **ON** when the vehicle is started.

**To Turn ON/OFF the Auto-Dimming Feature:**

For Vehicles with the INFINITI Navigation System

Press the **button** on the inside mirror to turn **OFF** the feature. Press the **button** to turn the feature back **ON**.

---

**Homelink® Universal Transceiver**
(If so equipped)

This feature can memorize up to three unique signals to operate remote devices such as garage door openers. Refer to the programming information located in your vehicle's owners manual for more details about this feature.

**Trunk Release Power Cancel (ON/OFF) Switch – Valet Hand-Off**

A **Cancel (ON/OFF)** switch is located inside the glove box. If you cannot open the trunk using the Trunk-Release switch or Trunk-Release buttons, check the **Cancel (ON/OFF)** switch.

**For Vehicle Valet Hand-Off**

When you need to leave your vehicle with a valet and want to keep your belongings safe in the glove box and the trunk:

Note: Lower the trunk separator to be certain the hard top **cannot** be opened during valet hand-off.

1. Push the **OFF** side of the **Cancel (ON/OFF)** switch.
2. Remove the Mechanical Key from the Intelligent Key and use it to lock the glove box.
3. Hand the Intelligent Key to the valet. Keep the Mechanical Key “on your person.”
4. When you retrieve your vehicle and Intelligent Key from the valet, unlock the glove box with the Mechanical Key and push the **ON** side of the **Cancel (ON/OFF)** switch. Reinsert the Mechanical Key into the Intelligent Key.
Quick Reference Guide

Introduction

This easy-to-use Quick Reference Guide will help you to more fully appreciate your vehicle's superior features, unique functions and advanced technology.

- The Quick Reference Guide is intended to provide you with a user-friendly learning experience to quickly acquaint you with your new INFINITI vehicle.
- Refer to the Quick Reference Guide to learn how to personalize your vehicle's controls and equipment to maximize your driving comfort and convenience.

However, this guide is not intended to replace your vehicle's Owner Manual. For comprehensive vehicle safety information and product details please refer to your Owner's Manual. It will help you to better understand the operation and proper maintenance of your new INFINITI vehicle.

Both INFINITI and your INFINITI dealer are dedicated to serving all your automotive needs. Your complete satisfaction is our primary concern. It is suggested that you read this Quick Reference Guide and your vehicle’s Owner Manual thoroughly before contacting your INFINITI dealer with related questions.

Wind Deflector

Your vehicle can be equipped with the accessory Rear Wind Deflector. When the convertible hard top is open, and the rear seats are unoccupied, the Rear Wind Deflector can be easily installed to help reduce wind and noise, and secure contents stored on the rear seats while driving with the top down. When not in use, the foldable Rear Wind Deflector can be stored in its accompanying storage bag.

12-Volt Power Outlet and Auxiliary Input Jacks

A 12-volt power outlet is located within the center console. This outlet can be used for accessories that do not exceed a 12-volt, 120W (10A) power draw. There are also auxiliary input jacks located within the center console. NTSC compatible devices such as video games, camcorders and portable video players can be connected to the auxiliary jacks. To select the auxiliary input, press the AUX button.

The auxiliary jacks are color coded for identification purposes (cable not included).
- Yellow – video input
- White – left channel audio input
- Red – right channel audio input

Note: Video will only be displayed in the Information Display screen when the parking brake is applied.

Important Customer Information

Aluminum Alloy Wheels

Your vehicle is equipped with aluminum alloy wheels that should be cleaned regularly with a sponge dampened in a mild soap solution specified for automotive applications, especially during winter months in areas where road salt is used. Salt could discolor the wheels if not removed. To help prevent damage to your alloy wheels:
- Do not use a cleaner that uses strong acid or alkali contents to clean the wheels.
- Do not apply wheel cleaner to the wheels when they are hot. The wheel temperature should be the same as the ambient temperature.
- Rinse the wheel to completely remove the cleaner within 15 minutes after the cleaner is applied.
